COURSE SYLLABUS

3D Modeling in AutoCAD Course (Self-Paced)

Bring your AutoCAD skills into the third dimension with advanced modeling techniques and best practices for building complex 3D designs. This course is created for students who're already confident working with 2D drawings in AutoCAD and are ready to go further.

> Group classes (Live Online) and onsite training are available for this course. For more information, email onsite@graduateschool.edu or visit: https://www.graduateschool.edu/courses/3d-modeling-in-autocad-course-self-paced

Course Outline

3D Foundations
Simple Solids
Working with the User Coordinate System
Creating Solids & Surfaces from 2D Objects
Modifying in 3D Space
Advanced Solid Editing
Additional Editing Tools
Refining the View
Point Clouds
Visualization
Working Drawings from 3D Models
