

3D Modeling in AutoCAD Course (Self-Paced)

Bring your AutoCAD skills into the third dimension with advanced modeling techniques and best practices for building complex 3D designs. This course is created for students who're already confident working with 2D drawings in AutoCAD and are ready to go further.

Group classes in Live Online and onsite training is available for this course. For more information, email onsite@graduateschool.edu or visit: <https://www.graduateschool.edu/courses/3d-modeling-in-autocad-course-self-paced>

Course Outline

- 3D Foundations
- Simple Solids
- Working with the User Coordinate System
- Creating Solids & Surfaces from 2D Objects
- Modifying in 3D Space
- Advanced Solid Editing
- Additional Editing Tools
- Refining the View
- Point Clouds
- Visualization
- Working Drawings from 3D Models
