COURSE SYLLABUS

Tableau Level II Course

Learn advanced Tableau skills and create custom charts in this course. You will dive further into Tableau tools and customization of visualizations. You will also learn to create various maps, format geographic data for Tableau, and build actions to control your visualizations within your sheets and dashboards.

> Group classes (Live Online) and onsite training are available for this course. For more information, email onsite@graduateschool.edu or visit: https://www.graduateschool.edu/courses/advanced-tableau-training
