COURSE SYLLABUS

After Effects Bootcamp

Master motion graphics and visual effects as you dive into Adobe After Effects. You'll work hands-on with animation, keyframing, masking, and compositing while building projects like title sequences and animated infographics. By the end, you'll be able to create polished video content for a variety of digital platforms.

> Group classes (Live Online) and onsite training are available for this course. For more information, email onsite@graduateschool.edu or visit: https://www.graduateschool.edu/courses/after-effects
