## Course Outline

### Module 1: Overview of Federal Audits and Oversight

- Identify types of audits affecting grant recipients.
- Understand audit scope and auditor authority.
- Recognize the role of pass-through entities.

### Module 2: Audit Standards and Regulatory Requirements

- Identify relevant audit standards and requirements.
- Understand Single Audit fundamentals.
- Recognize audit timelines and thresholds.

### Module 3: Internal Controls and Audit Risk

- Identify internal controls auditors assess.
- Link control weaknesses to audit findings.
- Assess audit risk areas.

### Module 4: Financial Records and Cost Documentation

- Prepare documentation supporting allowable costs.
- Organize financial records for audit review.
- Avoid common documentation gaps.

### Module 5: Programmatic and Performance Documentation

- Prepare programmatic records auditors review.
- Align performance reporting with award terms.
- Identify program documentation weaknesses.

### Module 6: Managing the Audit Process

- Coordinate audit logistics and staff roles.
- Respond to auditor inquiries effectively.
- Manage audit communications professionally.

#### **Module 7: Understanding Audit Findings and Questioned Costs**

- Understand how audit findings are developed.
- Distinguish findings from observations.
- Analyze root causes of findings.

#### **Module 8: Developing Corrective Action Plans**

- Draft effective corrective action plans.
- Address root causes and prevent recurrence.
- Assign responsibility and timelines.

#### **Module 9: Post-Audit Follow-Up and Monitoring**

- Track corrective action implementation.
- Respond to follow-up requests.
- Maintain documentation of resolution.
