Adobe InDesign Bootcamp

- Create layouts with text, color, and graphics
- Import and style text and graphics
- Create and apply color
- Create short or long documents such as brochures, advertisements, magazines, and books
- Prepare your files for final output: printing or PDF
- Create and edit paragraph/character styles to easily format and change text throughout a design
- Use master pages to control the layout of multi-page documents
- Work with anchored objects, tables, libraries, find/change, and more

Adobe Photoshop Bootcamp

- Learn to retouch photos and create graphics

- Improve your images by adjusting color, brightness, and contrast
- Use selections to work with specific parts of an image
- Prepare images for digital, web, video, or print
- Make updates easier by using adjustment layers
- Remove backgrounds with layer masks
- Sharpen photos
- Create visual effects with filters, shadows, blend modes, and much more

Adobe Illustrator Bootcamp

Learn how to create and edit vector graphics using Adobe Illustrator, from basic shapes to advanced design techniques.

- Create a variety of graphics, including logos, icons, patterns, packaging, and typography
- Use the Pen tool to create vector drawings, with our tracing templates to help you master this drawing tool
- Learn to work with shapes, brushes, and painting tools
- Create colorful vector graphics using gradients and blends
- Create patterns for use in graphic and fashion design
- Make graphics for packaging
- Save files for web or print
