COURSE SYLLABUS

Tableau Certification Online

Build expertise in data visualization as you work with Tableau to create interactive dashboards and analyze real-world datasets. You'll gain hands-on experience with charts, maps, calculations, and storytelling to prepare for the Tableau Desktop Specialist exam.

Group classes (Live Online) and onsite training are available for this course. For more information, email onsite@graduateschool.edu or visit: https://www.graduateschool.edu/courses/tableau-certification

Course Outline

This package includes these courses

Tableau Bootcamp (12 Hours)

Tableau Bootcamp

Develop the skills to turn raw data into compelling visual stories with Tableau, the industry-leading data visualization platform.

- Connect to datasets in various formats and clean, filter, and structure the data for visual storytelling
- Create a variety of visualizations, including bar charts, line charts, treemaps, heat maps, and dual-axis charts
- Use Tableau's calculation tools to build custom fields, apply aggregates, and enhance data analysis
- Format charts with labels, tooltips, colors, and axes to improve clarity and visual impact
- Work with geographic data to build interactive map visualizations, including choropleths and proportional-symbol maps
- Customize dashboards and stories for different audiences and devices using Tableau's interactivity tools
- Integrate external map services and use advanced visualization types such as spider maps and alluvial diagrams
- Publish your work to Tableau Cloud and export dashboards for professional sharing and collaboration
