Course Outline

This package includes these courses

- Java Programming Summer Program Online (High School & College) (45 Hours)
- Python for Data Science & AI Machine Learning Online (High School & College) (45 Hours)

Java Programming Summer Program Online (High School & College)

- Write and use industry-standard algorithms
- Write your own program in both the object and procedural paradigm
- Read and understand large programs
- Understand how to think like a programmer
- Write your own functions

Python for Data Science & AI Machine Learning Online (High School & College)

- Programming fundamentals in Python
- How to write conditional statements in Python
- Input data using the Pandas package
- Clean and wrangle data
- Visualize and understand complex data
- Use machine learning algorithms
