

Emerging Technology for Business Professionals (Self-Paced)

This self-study program includes three eLearning courses - Internet of Things, Artificial Intelligence, and Data Science for Business Professionals - as well as a combined assessment that allows the learner to obtain the Emerging Technology for Business Professionals (ETBIZ) credential. Business professionals will gain an understanding of the Internet of Things, artificial intelligence, and data science, plus the benefits and challenges of how to begin integrating these emerging technologies into your business.

Group classes in Live Online and onsite training is available for this course. For more information, email onsite@graduateschool.edu or visit: <https://www.graduateschool.edu/courses/emerging-technology-for-business-professionals>
