## Course Outline

### Module 1: Federal Job Grading System

- Explore the history and purpose of the Federal Wage System (FWS)
- Understand the structure and components of the job grading system
- Compare FWS with the General Schedule classification system
- Review FWS coding plans and pay categories (WG, WL, WS)

### Module 2: Job Grading Standards

- Understand the structure and purpose of job grading standards
- Learn the four key grading factors: skill/knowledge, responsibility, physical effort, working conditions
- Analyze standard sections: work covered, not covered, titles, and notes to users

### Module 3: Applying Job Grading Standards

- Learn the five-step job grading evaluation method
- Chart and compare job duties against grade-level definitions
- Apply factor-based analysis to determine correct grades

### Module 4: Applying Trades Helper and Intermediate Standards

- Identify when to use helper or intermediate standards
- Understand the grading process for developmental positions
- Apply standards to evaluate progression toward journey-level work

### Module 5: Applying Wage Leader and Wage Supervisor Standards

- Differentiate roles of managers, supervisors, and leaders in FWS
- Apply criteria for WL and WS job grading standards
- Evaluate supervisory responsibility, level of work, and scope of operations
