Course Outline

This package includes these courses

- Premiere Pro Bootcamp (18 Hours)
- Premiere Pro Advanced (18 Hours)
- After Effects Bootcamp (18 Hours)
- After Effects Advanced (18 Hours)
- After Effects Compositing, Tracking, & Keying (18 Hours)

Attend the AI for Video & Motion Graphics class for free as part of this certificate. Choose your date after you register for the program.

AI for Video & Motion Graphics

Premiere Pro Bootcamp

- Learn to edit video and audio
- Clean up background noise in the audio
- Color correct video
- Add B-roll (related video to make your content more interesting)
- Bring in photos/logos and animate them
- Add transitions
- Export your videos for sharing on social media or delivery to a client
- Master multi-cam editing
- Learn green screen removal (chroma keying)
- Understand when to use the various editing tools and techniques
- Color correct video footage (including adjustment layers)

- Adjust audio volume
- Adjust the timing of footage (speed up, slow down, and freeze-frame footage)
- Resize video and work with square video for social media (such as Instagram)
- Incorporate After Effects projects into Premiere Pro

Premiere Pro Advanced

- Edit action sequences
- Add special visual effects to your edits
- Work more with audio
- Work with vertical video for social media
- Time-remap video
- Learn picture-in-picture effects
- Create custom transitions

After Effects Bootcamp

Learn how to create professional motion graphics and visual effects using Adobe After Effects. This course covers animation techniques, text effects, and file integration to help you build engaging video content.

- Learn how to animate photos, text, and graphics
- Use timeless animation principles to create interesting and dynamic animations
- Understand the After Effects workflow
- Master position, scale, rotation, and opacity effects
- Utilize masks and track mattes to enhance videos with special effects
- Integrate files seamlessly by importing and animating Photoshop, Illustrator, and audio files
- Export professional videos using essential properties and expressions for high-quality output

After Effects Advanced

- Work with 3D layers, cameras, and lights to create dynamic scenes
- Create and animate custom shape layers using the Pen tool
- Develop advanced text animations and save presets for future use
- Optimize animations with expressions and wire parameters for complexity
- Enhance audio integration by adding markers and applying audio effects

After Effects Compositing, Tracking, & Keying

Master advanced compositing techniques in After Effects, including keying, rotoscoping, and motion tracking. This course teaches you how to seamlessly integrate 2D and 3D elements into your video projects.

- Use motion tracking with Point Tracker and MochaAE to match movement with precision.
- Remove backgrounds with green screen keying using the Keylight effect and garbage mattes.
- Stabilize shaky footage with the Warp Stabilizer VFX tool for smooth motion.
- Apply time remapping techniques to create slow-motion, fast-motion, and frame-blended effects.
- Rotoscope video footage using manual techniques and the Roto Brush tool.
- Work with track mattes to create complex layering effects with images and video.
